

1. Numbered Heads

Instructions

Students number themselves 1 to 4 in their group before the activity begins.

The teacher poses a question or topic and gives the students a suitable time limit within which all members of the group must agree on an answer and ensure the answer is known by all group members. Silence is called.

The teacher randomly selects a number from 1 to 4. All students who were allocated that number stand and present the group answer to the class via mini whiteboard.

Set-up

- ✓ Students in consoles of 4
- ✓ Mini whiteboard and pen per table
- ✓ Random number selector

Skills developed

- ✓ Identify
- ✓ Describe/Outline
- ✓ Summarise
- ✓ Suggest
- ✓ Justify/Explain
- ✓ Compare
- ✓ Discuss
- ✓ Evaluate
- ✓ Analyse
