FAQs

- **How easy is it to get started?**

As a team of **teachers**, we understand how important it is to get students learning in as few steps as possible. Setting up an account takes just a few minutes and the TEL team is always on hand to support you at every stage via phone, email or live chat.

- **Do you provide help to get started?**

On registering for a free trial, you will be assigned an account manager who will support you and your learners at every stage of the process, whether that be in creating users, assigning courses or resetting passwords.

All teachers are also encouraged to attend a **personalised demo** with The EverLearner's Creator and **Lead PE teacher, James Simms**. We find this to be a vital piece of the process, ensuring that both teachers and learners can make the most out of their subscription.
